## PRESSURE RANGE SUFFIX SELECTION

For factory tagging of valve location, specify location by pressure range suffix. (see manufacturers pressure regulating valve chart)

- U     -T     -S     -R     -Q  
 -P     -O     -N

NOTE: The in-line installation of a "REG-U-MATIC" sets up a closed system. A relief valve should be installed to eliminate excessive pressure build up due to line surges.
